

VT750C2 SHADOW

Colouring Concept

The American Classic VT750C2 Shadow features an unmistakable 'long, low and wide' design that combines timeless traditional lines with gorgeous attention to detail to make it as much a pleasure to look at as it is to ride. Its colour variations for '99 include an all-new two-tone light metallic copper colour with pearlescent red inserts that should

appeal to younger riders with its exuberent yet classy sense of style. Carried over from the current year are a widely popular all-black variation that shows off the Shadow's brilliant chrome to maximum effect, and a creamy ivory version with pearlescent green inserts that continues to emphasize the VT's traditional image for older riders.

Colours

- Black
- Pearl Ivory Cream (with Pearl Sonoma Green)
- Light Copper Metallic (with Pearl Sedona Red)
