

#### Colouring Concept

Designed as an easy step up into the exciting world of Honda's full-blooded XR off-rovers, the XR70R offers compact proportions, easy control and a full range of enduro-ready features to keep a youngster's joy level meter pinned at "MAX" the whole day long.

For 1999, the entire XR line-up hits the trails in all-white paint and plastic highlighted by a bright red, black-trimmed seat. Aggressive new red and black tank graphics feature an angular 'XR' logo and yellow Honda mark superimposed on an oversized representation of the Honda wing mark, and the model name printed in outline letters on both sides of the seat.

#### Colour

- Shasta White

#### New Features

- New graphics.
