

CH125 Spacy

Colouring Concept

With its spacious proportions, timeless styling and effortless riding ease, Honda's curvaceous Spacy has been a steady and popular figure in Europe's diverse scooter scene. Its sleek styling and ample carrying capacity combine with a powerful yet pleasantly quiet 4-stroke single cylinder engine to provide a satisfying rush of acceleration and smooth, unhurried performance for one rider or two. Its highly economical operation also ensures the Spacy provides long-term satisfaction with low running costs to make it a favoured choice for daily errands or even long commutes.

For 2001, the Spacy's two bright and attractive colour variations both carry over from the preceding year to further accentuate its perennially modern sense of style. A richly glowing candy red gives the Spacy a light-hearted feel that carries it through the day. Shimmering pearlescent blue exudes a cool, relaxing sense of comfort that proves the perfect match for its modern lines and friendly disposition.

Colours

- Candy Graceful Red
- Pearl Atlantis Blue

CH125 Spacy

Specifications
