

CN250

Colouring Concept

Honda's distinctively styled CN250 has made a lasting mark on Europe's scooter scene with its long, futuristic lines and giant, locking rear boot setting it apart from anything else on the road since its 1988 introduction. In many ways more than a standard scooter, yet certainly nothing quite like a motorcycle, the CN250 offers a broad, comfortable tandem seat and a long and low riding position in a 'space-age' configuration that attracts bemused smiles and admiring glances wherever it's seen. Quick on performance, its liquid-cooled single-cylinder engine delivers breath-

taking acceleration with a silky smooth rush, while its comfort and convenience are second to none.

For 2001, the CN250 reappears in the same two colour variations that graced its angled lines the previous year. Accentuating its spacious proportions is a dark, mysterious black that shimmers with greenish reflections in the bright light of the sun. A lush, luxurious candy red complements the CN's grey interior to exude a look of quality while heightening its urban flair.

Colours

- Candy Wineberry Red
- Black Green Metallic
