

Honda Sky

Colouring Concept

The slim and attractive HONDA SKY combines bold, circular-patterned, 'Neo-Retro' styling with a swift surge of exciting performance that makes every trip on its seat a joy to look forward to. Rolling on large-diameter, cast aluminium 16-inch wheels, the SKY provides responsive and confident control, while its tall, plush seat and roomy proportions provide ample legroom for riders of all shapes and sizes. Designed to accentuate the fun of riding, the SKY

also emphasises Honda's concern for the environment with the inclusion of a catalyser element built into its exhaust system, which reduces the release of hydrocarbons (HC) and nitrous oxides (NO_x) into the atmosphere to well below the levels required by EURO-1 exhaust emissions regulations.

The SKY's three styling variations include its basic standard type, with all-black components and parts

providing a modern accent on its attractively simple design. The Deluxe version provides a dash of crisp urban style with chrome plating tastefully added to its headlight, taillight, indicators and rear carrier. And last, the delightful Vetro version features specially moulded translucent plastic bodywork that puts it on the forefront of the latest trends in industrial design. Wheels on all versions are coated in a chrome-like silver.

Honda Sky

Colouring Concept

The SKY's new colour variations for these versions include:

Standard: Carried over from the previous year are a boldly impressive black that seems to dance in the reflection of nighttime lights, and a snowy white that provides a stark yet highly attractive base for the contrasting black of the Standard version's accessories and trim.

Deluxe: New for 2001 is the rich hue of fathomless blue that exudes a tranquil sense of ease, and a neutral grey that provides a cleanly elegant background for the Deluxe version's chrome parts and silver wheels.

Vetro: In its remarkable Vetro version, the Sky's translucent, 'skeleton-style' bodywork turn heads in a bright and lively blue, and a mysterious new smoky grey that both mix trendy fun with distinctive style.

Colours

Standard Version

- Black
- Real White

Deluxe Version

- Space Blue
- Fumo Grey

Vetro Version

- Murano Blue
- Fumo Grey

New Features

- New luggage hook located under the seat makes carrying bags and parcels easier and more secure.
- New colour variations.
