

2003 JAZZ ES-ABS PRESS INFORMATION

The JAZZ ES-ABS features the same superb big-city, big scooter styling and powerful performance found in the standard JAZZ, but expands its menu with the addition of a specially designed Antilock Brake System. Integrated with the JAZZ's standard Combined Brake System, this smoothly responsive 'Combined-ABS' ensures the easiest, most confident brake operation to be found on two wheels. On top of this, the JAZZ ES-ABS also exclusively features Honda's advanced Energy Saving system, which reduces engine noise, emissions and fuel consumption by actually stopping the engine when idled for more than a few seconds, then automatically restarting it the instant the throttle is turned to go again. Offering an unmatched combination of leading-edge technology and cutting style, the JAZZ ES-ABS dramatically expands your world of scooter riding enjoyment.
